## ENGINEERED TO WORK WITH YOUR TRUCK

Protect the entire front end of your vehicle, including your headlights and grille, by removing your factory bumper and replacing it with a HERD pickup guard. Our products mount directly to the frame and are engineered specifically for each make and model, meaning they're built to last and look great doing it.

Founded in 2003, HERD is one of North America's leading vehicle guard companies. Whether you're looking for something that mounts over your existing bumper or replaces it, we're committed to offering a full line of protection products for today's trucks.

## AeroLT PLUS Series

HERD's Polyurea coated pickup guards are designed to complement your truck's design while providing the best protection in the industry. The coating will provide a rust-free durable finish that will stand the test of the elements and time. Parking sensor cutout, OEM driving light cutouts, and a polished aluminum option.

### FULLY BOXED-IN UPRIGHTS

Standard on every guard

### ACCESS TO FACTORY TOW HOOK

Towing Provision

### AEROLT PLUS AVAILABLE OPTIONS

Polished Aluminum

Parking Sensor Cutouts

OEM Light Cutouts

Signal Lights

## Choose the guard that fits.

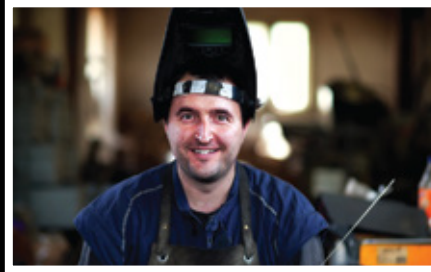

Don't settle for ill-fitting, universal guards that don't match the contours of your truck and leave holes in your protection. HERD pickup guards are engineered specifically for each make and model so you get a perfect fit and protection where you need it.

## Aluminum construction

HERD guards are made from Aluminum chosen for its proven track record of strength, protection and beautiful shine. Plus, polished aluminum means never having to worry about rust.

## Products as strong as our word

We guarantee that you'll be as proud standing in front of our guards as we are standing behind them. If you're not completely satisfied with the durability and design of your purchase, let us know and we'll make it right.

## AeroLT Series

HERD's Polished Aluminum Series offers the strongest protection in the industry while providing the best fit and finish for your truck. Signal light cutouts and OEM driving light cutouts are available on all AeroLT Series Guards.
